Designer Concrete Coatings... The Right Choice

Distinctive Products

Your choice of Designer Concrete Coatings means that you want a strong, durable, decorative paving product to add style and value to your property.

With Designer Concrete Coatings, you can resurface dull, existing plain concrete or cast-in-place a brand new pavement. Choose from a variety of elegant brick or tile patterns with a classic range of modern or traditional colour tones.

Exciting Colour Range

Choose from a selection of 24 vibrant colours ranging from earthy terracotta through a variety of variegated tones replicating natural stone and clay masonry. Colour flexibility enables you to create prestige, quality and class.

Designer Concrete Coatings recommends you visit a display nearest to you to make the right choice.

Customer Service and Product Support

Your choice of Designer Concrete Coatings means that you want experienced product advice and customer service. Designer Concrete Coatings staff have more than 20 years collective experience in the decorative concrete paving industry with Australia-wide and international acknowledgement for technical advisory and product support services.

Workmanship Warranty

Your choice of Designer Concrete Coatings means that you want peace-of-mind, knowing that the licensed independent professional tradesperson who does the work, warrants the work under fair trading policy.

Designer Concrete Coatings... We do everything better by choice.

Classic and Traditional Paving Patterns

Your choice of 24 creative patterns, from stylish bushrock, or classic cobblestone through to traditional brick begins the transformation of your plain concrete patio, pathway or pool surround into a striking feature. Header courses and rosettes can be introduced into design options to complement patterns. Patterns illustrated show the options available. Choose your design to enhance your property, to blend with your home's architecture, your garden landscape or to suit your personal taste.

Features and Benefits

Economy and Value

Designer Concrete Coatings systems are the modern alternative to standard concrete paving finishes at a competitive cost over clay brick or tile alternatives.

Our decorative concrete paving systems are formulated to achieve excellent performance and durability. Drive on, walk on, Designer Concrete Coatings products look good, and are superb value for money.

Low Maintenance

Designer Concrete Coatings decorative paving products remain virtually maintenance free after application... durable and abrasion resistant to normal pedestrian, vehicular traffic and weather exposure.

Periodically cleaned and resealed from time to time, Designer Concrete Coatings products will maintain aesthetic appeal throughout their design life.

Skid Resistant

An applied textured finish to Designer Concrete Coatings pavement surfaces is a safety feature for wet and dry conditions. Minimises skid hazard.

Quality Assurance

Your choice of Designer Concrete Coatings means that you want to buy genuine Australian made decorative paving products manufactured to a quality standard... and with a written guarantee.

Pavement Options

Designer Concrete Coatings system will add real value to your property.

A myriad of end-use options include:

Patios, driveways, terraces, services courts, carport floors, shop floors, pathways, entranceways, pool surrounds, kitchen, family room floors... and many more.

Installation of Designer Concrete Coatings systems is undertaken by independently owned/operator contractors. No liability can be accepted by Designer Concrete Coatings Pty Ltd for faulty workmanship nor claims resulting from product misuse or product installation not affected in accordance with the manufacturer's recommendations. Should problems occur however, please contact Designer Concrete Coatings Pty Ltd immediately.

Cracks and/or defects in the original, existing concrete pavement may be affected by or the result of pavement design and construction, defective sub-surfaces, poor drainage and/or water undermining the pavement. General spalling or scaling of the original, existing concrete surface may also be apparent. While all due care shall be undertaken to fill visible cracks and defects in the original, existing concrete pavement using recognised concrete re-surfacing systems, no liability can be accepted by Designer Concrete Coatings Pty Ltd nor the independently owned/operator contractors for claims resulting from cracks or defects in the original, existing concrete pavement.
