

Driveways & Interior Floors

Designer Concrete Stain

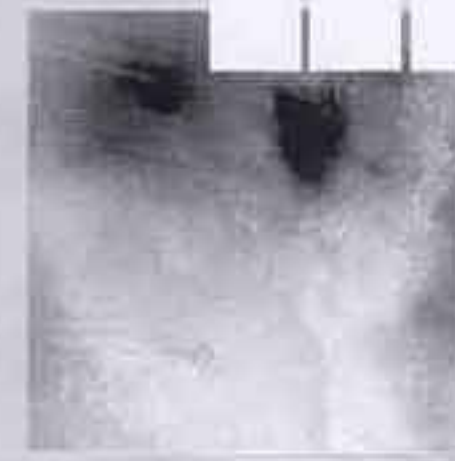

Unique features

Inspiring colours

Impressive design options

Fabulous floors and driveways

Decorative concrete stain from Designer Concrete Coatings is our latest product for homeowners, architects and specifiers seeking a truly unique look with colour, feature, and a variety of design options.

Stained driveways make a grand entrance ...

Custom combinations produced by concrete stamp impressions and geometric design saw-cutting featuring stain colouring can create an in-vogue driveway entrance of enormous style and appeal to your home.

Stained interior floors make a living feature ...

Whether at home or in a restaurant, retail store or office, a stained floor makes a most desirable impression. Stained floors are cost effective, with the ability of concrete to use radiant floor heating giving energy efficiency to passive solar house design.

Polished & stained interior floors make a stunning impression ...

The appeal of polished concrete combined with the beauty and unique look produced by stain treatment brings life to an interior floor that's just magnificent. Every polished and stained floor is individual.
